Making everyday life better for everyone and improving health and well-being for all

MAYOLY
Taking your care to heart

OUR PURPOSE

Making everyday life better for everyone and improving health and well-being for all.

Our ambition is to become a global leader in Consumer Healthcare, offering high-quality and effective solutions to improve the lives of millions of patients.

Every day, we work to strengthen our position, cultivating inclusive leadership and fostering a work environment that sparks initiative and collective performance. Through this commitment, we aspire to create ever more innovative and accessible solutions to improve the health of all.

Prioritizing and focusing our efforts is critical to unlocking and maximizing the potential of our products and health and well-being solutions.

SUPPORT CAREFULLY

Our human chemistry makes us unique

Improving the life of every individual has always been our purpose.

And it remains true today!

Our corporate culture is one of our greatest strengths. It drives us to meet the needs of patients and consumers.

It unites us around a shared identity and is based on the values we embody and live every day.

We work relentlessly to become a global leader in consumer healthcare and to build a more sustainable world.

WE ARE GAME CHANGERS

No matter where we go or the challenges we face: together, we are unstoppable.

Our human chemistry is unlimited and unique. It's our force.

Operational excellence and production in France

Our six industrial sites, five of which are in France, represent over 700 employees. Our five French industrial sites manufacture more than 80% of Mayoly products sold worldwide (60% for the Topicrem range) and have received major investments to maintain a high level of excellence and commit to reducing CO_2 emissions.

of its production done internally and in France

65%
of its international revenue from +100 countries

90%
of purchases in Europe

Thanks to this industrial footprint, MAYOLY's contribution to France's trade balance is **€400 million** in exports.

CSR COMMITMENTS

A more responsible approach to health

Three cornerstones for a social, societal, and environmental impact strategy

PEOPLE

Social commitment

Create a fulfilling employee experience that promotes equity

Humans are, and will remain, the "driver" of our development, of our ability to adapt to reality, to our rapidly-changing markets, consumers, and teams.

PUBLIC

Societal commitment

Promote health and well-being practices

Committed to its stakeholders, MAYOLY organizes events and provides healthcare professionals with informational tools to assist with patient and consumer support to improve proper use, health product safety, and prevention.

When we give meaning to and mobilize our stakeholders, we amplify our impact!

PLANET

Environmental commitment

Preserve our environment, resources, and biodiversity

We have a role to play in preserving resources and limiting the impacts of our activities on climate change, leading to new health challenges.

SCIENCE BASED TARGETS

Our commitment and trajectory to reduce our greenhouse gas emissions by 2030 compared to 2019 have been validated by the Science Based Targets (SBTi) initiative.

Scope 1 & 2:
-50% GHG emissions
by 2030 compared to 2019

Scope 3:
-55% GHG emissions per million euros value added
by 2030 compared to 2019

> “Mayoly aims **to reduce its GHG emissions by -50%** by 2030 compared to 2019”
